To: Bechtel Employees

Ladies and Gentlemen:

Armando J. Morales

It is with deep sadness that I inform you of the passing of Armando J. Morales on Friday, November 15, 1996. Armando, a 24 year Bechtel veteran, had been involved in the management and design of transit and railroad projects throughout the world over the course of his long career. Armando began his transportation career on the BART project. Subsequently, he worked on a wide variety of projects including the Caracas Metro, Sao Paulo Metro, BART/MUNI Embarcadero Station, San Diego and Portland light rail transit systems, and the BART Dublin/Pleasanton Extension where Armando served as Engineering Manager. Armando was active in many professional societies and was a registered professional engineer.

Armando was a dedicated professional who demanded a lot of himself, putting in the extra effort to assure that his high standards were met. He was a good teacher and friend and he will be missed by all those who had the pleasure to work with him. Please join me in sending our deepest condolences to Armando's wife, Emilia and their four children.

Formal services will be private. On Saturday, November 23 friends of Armando are invited to visit the family between 2:00PM - 4:00PM at Armando Morales Junior's home at 730 Big Ben Drive in Pacifica.

Sincerely,

David W. White
